

Traveling To or From California? Follow These Travel Guidelines

Traveling to or from California? Help prevent the spread of COVID-19 by following these travel guidelines. Read the [CDC's Travel Guidance](#).

Follow CDC Travel Guidance

All travelers arriving or returning to California from other states or countries should follow [CDC travel guidance](#).

Positive Test Result? Isolate and Take Precautions

All travelers who [test](#) positive or develop [symptoms](#) of COVID-19 should [isolate](#) and follow [public health recommendations](#).

Delay International Travel Until You're Up to Date on Your Vaccines

If you're traveling internationally, follow [CDC testing guidelines for international travel](#) before and after your return to the U.S. Follow all CDC and [California masking guidelines](#). Stay informed of [CDC travel recommendations by destination](#) that will warn you about high transmission rates in an area.

[Stay up to date with your COVID-19 vaccinations.](#)

If You Are NOT Up to Date on Your Vaccines, But Choose to Travel Domestically, Test Before and After

If you are not up to date on your vaccines, but choose to travel domestically (within the U.S.), [test](#) within 3 days before and 3–5 days after travel. If you had a confirmed COVID-19 infection in the past 90 days (approximately 3 months), you do not need to test before or after traveling or stay home after you returned from travel.

Wear a Mask on Public Transportation (Regardless of Your Vaccination Status)

Masks are strongly recommended on public transportation (including airports, planes, trains, buses, stations, etc.) into, within, or out of the U.S. Be sure to follow all local health rules, which may be stricter than statewide rules.
